ADVENTUROUS JEEP SAFARI

INFO

Pick-ups start from approximately 08:15 from Chania.

The tour lasts 6-7 hours.

The max altitude that our tour will be is 1350 m.

Introduction of Tour 1

Combine a unique safari tour in the White Mountains of Crete and take in the most incredible panoramic views, visit traditional Cretan villages, learn the history and traditions of the island, and find out all about the lifestyle of a Cretan shepherd while exploring an original shepherd's hut. Enjoy the unique view of Chania from an altitude of 1350m and discover the wildlife of Crete with the help of our premium off road vehicles, driven by specialised multilingual escorts.

Detailed Description, Points of Interest

Our amazing off-road adventure begins by crossing a valley full of orange and avocado trees, and many vegetables gardens. Climbing up the foothills of the White Mountains where we make our coffee stop at Deres to enjoy our morning break. Continuing we drive through the Cretan villages of Vatolakos, Alikianos, Fournes, Meskla, Zourva and Therisso getting a taste of the mountainous Crete in the foot of the White Mountains, following an off road route up to the shepherd's hut called "Mitato" far away from tourist areas. We are travelling on uncharted routes where only a four wheel drive can approach and we enjoy the magnificent panoramic views of northern Crete and, if lucky ... to marvel some wild eagles and goats from up close giving us a good reason to stop and capture the moment. A small rocky road will lead us up to our trip's highest point of 1350 meters altitude in the heart of the White Mountains of Crete, where you will find out all about the lifestyle of a shepherd. We will learn where the famous Cretan "Graviera" cheese was produced and explore an original Shepherd's hut called "Mitato".

On our way back we will enjoy the best panoramic view of Chania from above, until we arrive at Therisso village for a short walk in the historic village and a visit in a small Cretan family tavern for our lunch. After our lunch we will follow the road through the amazing gorge of Therisso that will lead us back to the city of Chania.

Please note this trip is not recommended for people suffering from car sickness, fear of heights or bumpy roads, disabled people or people with mobility problems, children under 7 years old or for any children & adults who for some reason could have issues joining a Jeep tour

REMEMBER TO BRING!

→ Camera → Hat & sun-cream → Long-Sleeved Shirt for Sensitive skin → Good Comfortable Shoes
