Jeep Safari Tour 2

Are you the type of wine drinker that despises the average and loves the extraordinary while searching for local tastes when travelling? Are you picky when you choose an olive oil?

Discover the secrets of wine, olives and Cretan tastes in a premium semi private safari tour introducing you to the daily Cretan life style and some of its most valuable treasures. This tour will take you through many villages and beautiful landscapes.

Olive Oil & Wine Tasting

Our day trip safari to the depths of the Cretan culture begins after we pick you up from your hotel or accommodation and heading towards Biolea olive mill in the village of Astrikas for an informative tour and olive oil tasting. Continuing our day tour we visit Karavitakis winery for a mouthwatering wine tasting experience accompanied by interesting information, for example the secrets of high longevity in Crete! Then we head to the village of Ano Vouves to marvel up close the ancient olive tree which is 3000 years old and learn about the history of olives.

Our adventure off-road route starts heading towards Sebronas village and as we cross a gorge with a picturesque creek nestled amongst lush vegetation and panoramic views. There, on our way through the gorge we will have plenty of opportunities to take photos of picturesque chapels, sheep, goats, bees, sprawling vineyards and gorgeous olive groves.

After working up an appetite we arrive at a small village tavern in Nea Roumata, where we will introduce you to the Cretan cuisine with plenty of local platters and let you feel the very essence of the renowned Cretan hospitality. On the way back we will follow an easy asphalt route through orange and lemon trees before reaching back to your hotel.

Please note this trip is not recommended for people suffering from car sickness, fear of heights or bumpy roads, disabled people or people with mobility problems, children under 7 years old or for any children & adults who for some reason could have issues joining a Jeep tour

REMEMBER TO BRING!

→ Camera → Comfortable walking shoes → a light jacket → Sun Protection Cream
