The Max altitude of the tour will be 700 m.

Jeep Safari Tour 2

Are you the type of wine drinker that despises the average and loves the extraordinary while searching for local tastes when travelling? Are you picky when you choose an olive oil?

You can explore our world of wine and Olive oils with one creative and adventurous tour around the mountains of Crete where you will have the chance to see from very close the process of making olive oil and wine. You will also have the chance to taste extra virgin Cretan olive oil and also a variety of local varieties of wine, made with passion and care.

Oil & Wine Tasting

Starting our Day trip Safari to Cretan culture we visit a modern Olive Mill for a guided tour around the olive oil production area and for an olive oil tasting experience learning everything about olive oil and consumption.

Continuing our day tour a visit a local winery is our second stop where we learn all about Cretan wines and tasting follows to keep our mood alive. Following a route through Cretan villages our next stop takes place in an ancient olive tree which is 3000 years old and an exhibition on the history of olives. Working up an appetite we arrive at a small village tavern, where we introduce you to Cretan cuisine with plenty of food, wine and warm Cretan hospitality.

On the way up to Mesavlia we cross the gorge of Deliana with its picturesque creek nestled amongst lush vegetation. There will be plenty of opportunities to take photos of sheep and goats on our way to the cavernous chapel of Ag. Paraskevi, where we will make a short stop. On the way back we will pass through cretan villages and olive grooves.

Please note this trip is not recommended for people suffering from car sickness, fear of heights or bumpy roads, disabled people or people with mobility problems, children under 7 years old or for any children & adults who for some reason could have issues joining a Jeep tour

REMEMBER TO BRING!

→ Camera → Comfortable walking shoes → a light jacket → Sun Protection Cream
