The Area

Enhance your traveling experience and get your body moving. Come and see the western coast of Crete on a SUP board. Paddle around the most crystal clear, turquoise waters and discover the amazing spots that not even the locals know, guided by our experienced SUP instructors.

SUP around & SNORKELING

At first when you arrive, there is an introductory lesson where you learn the basics regarding the area and the safety measures that should be taken. Additionally there is a course that talks you on how to paddle, how to stand up, how to turn and how to stop.

We set course within the bay, explore the caves that lie hidden across the coastline, swim, take pictures, and go snorkeling. We will provide you with all equipment (masks, snorkel, life jackets, paddleboards, paddles, leash lines) to safely enjoy the tour around our coastline and record all these unique memories with our action cameras.

After the end of the tour, you have some time to prepare; You can take a shower and change clothes while we are taking care of the SUP equipment that is left. After that we take you back home!
